

COVID-19 Policy when borders re-open

We will continue to remain vigilant and have implemented stringent measures against the spread of the novel coronavirus (COVID-19). The health and well-being of all our guests and colleagues remain, as always, our top priority.

Please note that the Ashford Motor Lodge is NOT a government managed isolation facility or quarantine hotel.

We regularly educate our staff and guests to observe good hygiene practices and would like to reinforce that we adopt the necessary precautionary processes based on the expert advice of the World Health Organization, local government, public health authorities and medical professionals to ensure we play our part in stopping the transmission of this virus for the safety of our colleagues and guests.

Key preventative measures in place at the Ashford Motor Lodge include:

- Increased frequency of disinfecting in all public areas including, but not limited to, handrails, countertops and door handles. Sterilization of remote controls, cutlery, cups, room keys and all other surfaces in guest rooms, the foyer and reception area and swimming pool.
- Hand sanitizer dispensers placed in public areas in the foyer/reception.
- Notices have been posted at all staff areas to ensure all Ashford Motor Lodge employees maintain good personal hygiene at all times and all employee areas have also been provided with hand sanitizer dispensers.

Regular staff meetings are held, to provide updates on the current national COVID status and practices.

Thank you for selecting the Ashford Motor Lodge - we look forward to your stay.
